Johannes U. Lange

Departments of Physics, American University
610-470-4833 | jlange@american.edu | johannesulf.github.io

RESEARCH INTERESTS

Dark Energy, Gravitational Lensing, Galaxy Formation, Statistical Methods and Machine Learning

POSITIONS

American University 08/2024 – present
Assistant Professor
University of Michigan 09/2022 – 07/2024
Leinweber Center for Theoretical Physics Fellow
Stanford University 09/2021 – 08/2022
Stanford–Santa Cruz Cosmology Postdoctoral Fellow
University of California, Santa Cruz 09/2019 – 08/2021
Stanford–Santa Cruz Cosmology Postdoctoral Fellow

EDUCATION

Yale University 08/2014 – 08/2019
M.Sc., M.Phil, Ph.D. in Astronomy
Ruprecht-Karls-Universität Heidelberg 09/2012 – 08/2014
Master of Science in Physics
Freie Universität Berlin 10/2009 – 08/2012
Bachelor of Science in Physics

TEACHING

Instructor, American University Fall 2025
Course: Data Mining and Machine Learning for Natural Sciences
Instructor, American University Spring 2025
Course: Changing Views of the Universe
Instructor, American University Fall 2024
Course: Modern Physics
Postdoctoral Course on STEM Teaching, University of Michigan Winter 2024
The Postdoctoral Short Course on College Teaching in STEM is a comprehensive 10-week program for postdocs to teach effectively as future faculty members.
Adjunct Lecturer, University of Michigan Fall 2023
Course: Naked-Eye Astronomy
Certificate of College Teaching Preparation, Yale University 2014-2019
The Certificate of College Teaching Preparation (CCTP) is an opportunity for graduate students to engage in a comprehensive training program in effective college teaching.
Teaching Fellow, Yale University Spring 2016, Spring 2018
Course: Astrostatistics and Data Mining
Teaching Fellow, Yale University Fall 2017, Fall 2014
Course: Introduction to Astronomical Observing

Teaching Fellow, Yale University Fall 2015
Course: Introduction to Cosmology
Teaching Fellow, Yale University Spring 2015
Course: Gravity, Astrophysics, and Cosmology

ADVISING

Simona Sotiri (undergraduate) 2025-present
Topic: The Lensing-is-Low Problem in FLAMINGO
Henry Gray (undergraduate) 2025-present
Topic: The Dependence of Assembly Bias of Galaxy Properties
Alisun Coldiron (undergraduate) 2025-present
Topic: Galaxy-Halo Connection in FLAMINGO
Abigail Fisher (undergraduate) 2025-present
Topic: Photometric Redshift Calibration
Alexandra Wells (undergraduate, co-adviser) 2024-2025
Topic: Cosmology from Non-Linear Scales
Alexandra Doytcheva (undergraduate) 2023-2024
Topic: Galaxy Clustering and Control Variates
Filomela Gerou (undergraduate) 2022-2024
Topic: Galaxy Clustering and Control Variates
Gilad Pifko (undergraduate) 2022-2023
Topic: Relationship between Galaxy and Dark Matter Halo Size
Simon Wu (undergraduate) 2022-2023
Topic: Gravitational Lensing Contribution from Subhalos
Garv Shah (undergraduate) 2022-2023
Topic: Boosting Importance Nested Sampling with Neural Networks
Juliana Karp (undergraduate) 2022-2023
Topic: Anisotropic Satellite Galaxy Quenching
Diana Blanco (graduate, co-adviser) 2021-2025
Topic: Photometric Redshift Calibration
Enia Xhakaj (graduate, co-adviser) 2019-2023
Topic: Gravitational Lensing

INVITED TALKS

Astronomy Seminar 05/2025
Carnegie EPL
Cosmology Seminar 04/2025
University of California, Berkeley
CTC Seminar Series 03/2025

University of Maryland
Physics Colloquium 04/2024
University of Hawaii
ITP Cosmology Seminar 12/2023
Ruprecht-Karls-Universität Heidelberg
Frontiers of Nested Sampling Workshop 07/2023
42nd International Workshop on Bayesian Inference and Maximum Entropy Methods in Science and Engineering
Webinar Series 06/2023
National Observatory in Rio de Janeiro
Early Career Researcher Cosmology Seminar 11/2022
Korea Astronomy and Space Science Institute
HEAP Seminar 12/2021
University of Utah
Astronomy Colloquium 09/2021
Swinburne University of Technology
Growth of Structure Webinar 07/2021
University of California, Santa Cruz
Growth of Structure Webinar 06/2021
University of California, Santa Cruz
Research Progress Meeting 01/2019
Lawrence Berkeley National Laboratory
CCAPP Seminar 01/2019
Center for Cosmology and AstroParticle Physics
BCCP Seminar 09/2018
University of California, Berkeley
The Galaxy-Halo Connection Across Cosmic Time 07/2017
Kavli Institute for Theoretical Physics

OUTREACH

Public Observing Nights at AU, Washington, DC 2024 - present
KIPAC Public Lecture, Palo Alto, CA 07/2022
Class at Stanford Splash, Palo Alto, CA 11/2021
Talk at Astronomy on Tap, New Haven, CT 06/2019
Talk at Institute for Learning in Retirement, New Haven, CT 04/2019
Talks at Leitner Family Observatory, New Haven, CT 02/2018, 05/2019
Talks at Open Labs Science Cafe, Yale University, New Haven, CT 10/2017, 04/2019
Member of Open Labs, Yale University, New Haven, CT 2016 - 2019
Tutor at New Haven Reads, New Haven, CT 2015 - 2018
Member of UCSB Physics Circus, UC Santa Barbara, Santa Barbara, CA 2012

HONORS AND AWARDS

Brouwer Ph.D. Thesis Prize, Yale University
Cosmology Fellowship, UC Santa Cruz and Stanford University
Graduate Fellowship Program, Kavli Institute for Theoretical Physics
Henry A. Smith Fellowship, Yale University

DAAD (German Academic Exchange Service) Scholarship
Deutschlandstipendium National Scholarship Program
Ernst Reuter Scholarship, Free University of Berlin

LEADERSHIP ROLES

Co-Chair of the NASA Cosmic Structure Science Interest Group	2025 - present
Co-Chair of the DESI desilike Topical Group	2024 - present
Co-Chair of the DESI C^3 Working Group	2022 - 2024

COMMITTEE MEMBERSHIP

Stanford Physics Equity & Inclusion Committee	2021 - 2022
DESI Professional Development Mentoring Program	2021 - present
DESI Early Career Scientists Committee	2021 - 2022
UCSC Astronomy Department Colloquium Committee	2019 - 2020
Yale Graduate Admissions Committee	2018 - 2019

REVIEWER SERVICE

Astronomy & Astrophysics
Monthly Notices of the Royal Astronomical Society
The Astrophysical Journal
Journal of Cosmology and Astroparticle Physics
